H. H. McClurg	A. H. Pride
J. H. Neal	Sherman Heflin
Ed Husband	John Jorgenson

Following the selection of the forty qualified jurors from the 100 talesmen summoned to appear in circuit court in the Gilmore murder trial Judge Dawson announced that the case would be continued until 9 o'clock Monday morning when the twelve trial jurors will be selected. In the selection of the forty qualified jurors ninety-two were examined.

The selection of the trial jurors will be carried on by the process of elimination. The prosecution has the privilege of eliminating eight men of the forty, while the defense may take the names of twenty from the list. This leaves the required twelve to occupy the jurors' box during the trial.

Charles F. McCaffrey has been employed to assist Prosecuting Attorney Sawyers in this case.

At Monday morning's session after the reading of the twelve jurors, Prosecutor Sawyers will make the opening statement, giving a general outline of the state's case. The statement for the defense will probably not be made at this time, as this right will be reserved until after the state's evidence is introduced.

After the opening statement, witnesses will be examined. The state's witnesses are Mrs. Blanche Palfreyman and Miss Marie Shipps, daughters of Mrs. Ella Shipps; Mrs. Ed Wallace, Ed Wallace, Glen Reece, Ed Goforth, Tom Gile, Mark Dalrymple, Bert Mack, Orville Ernest, Emmett Scott, Dock Cummins, Fred Diss, Dr. Will Wallis, Jr., Dr. Frank Wallis, Mrs. Ed Johnston, J. H. McCaffrey, Calvin Burch and Ed Mann.

Willis Oxley and Ol Coleman, two of the jurors, who qualified with the necessary forty, were allowed to go home because of sickness in their families.

The closing hours of the session yesterday afternoon were devoted to the selection of the nine jurors necessary to complete the forty that are first chosen and from which the trial jury is chosen.

Of the sixth panel William Stickel, William Sawyer, Newt Morgan, Ben Cooper, Marion Gray, George Gaugh, and L. A. Nigh disqualified because of conscientious scruples in regard to the inflicting of the death penalty.

Frank Hinton, who lives nine miles northeast of Maryville, said that he had six children, was a member of the Methodist church, had read the account of the murder in the News-Press, had discussed the affair, but had not formed any opinion. He qualified.

Burt McKee, a farmer living near Maryville, had read of the case but believed that there nas nothing to disqualify him from acting on the jury. The prosecution agreed to this.

James Farr of Ravenwood was passed by the prosecution but on being questioned by the defense admitted that since he knew the murder had been committed he would place the burden of explanation on the defense.

Carl Wray of Guilford said that he had read of the case, through the county and St. Joseph newspapers. He had talked with a person who said he was present at the scene of the murder. Mr. Wray said that he had formed a presumption rather than an opinion, which he felt that he could drop when he entered the jury box, and give the verdict with an open mind. He knew the members of the Shipps family when a postman in Maryville ten years ago.

Of the seventh panel, W. C. Aldrich, C. T. Sisson, Art Baker, William Linebaugh, Charles Simmons, C. C. McDermott, Fred Griffey, and James Horton were excused on account of conscientious scruples. Eight more men were immediately chosen, and two of these, F. A. Bloomfield and Robert Houston were excused for the same reason. William Bucker and J. L. Reddick, were excused because they had discussed the case with their neighbors since being summoned for the jury.

John Jorgenson of Barnard said that he had been out of the state at the time of the tragedy, and had formed no opinion. He had known Harry Shipps, but knew none of the other members of the family.

Art Fryar said that he could leave any opinion he had formed aside and could impartially judge the merits of the case by the evidence, because he had heard only rumors of the case.

Ben Cox, Harmony neighborhood, had based his opinion of the case entirely upon the newspaper accounts. He said that he could render an impartial verdict.

A. H. Pride had expressed nor formed no opinion of the case. He said he was acquainted with Q. A. Gilmore.

Del Appleby, living two miles north of Maryville, said he had an opinion based on newspaper reports and discussions, which purported to be facts. He felt that he would carry this opinion into the jury box and it would prevent him from viewing the testimony impartially. He was excused.

Sumner Carver, northeast of Elmo had never read or discussed the matter, and had formed no opinion. He qualified.

Lee Birkenholz was away from Missouri at the time of the murder, and had heard very little discussion of the case. He knew Harry Shipps, but not the family.

Sherman Heflin had discussed the matter, but felt that he could give the defendant a fair trial.

GERARD LEAVES TONIGHT

Departs for the Swiss Front Under Military Escort And On A Special Train

Special to The Democrat-Forum.

Washington, Feb. 10.—Ambassador Gerard will leave Berlin tomorrow for the Swiss front the state department was officially informed by the Swiss minister in charge of German affairs here. He will be accompanied by fifty attaches.

Berlin, Feb. 10.—All arrangements are completed for the departure of Gerard and the party tonight. They will leave on a special train and will be provided with a military escort. There is little excitement in the American colony here. Many of the members expressed a determination to remain here indefinitely.

GRAND JURY REPORT

RECOMMENDS THE BUILDING OF A NEW COUNTY JAIL.

PRAISES THE REST ROOMS

Urges Their Use By the Women of the County — Brings in One Indictment.

The grand jury took final adjournment this morning after bringing in one indictment and reporting on conditions at the county farm, jail and the rest room. The jury recommends a movement be started for building a new jail that is modern, sanitary and healthy, not a large jail but one for the few that may have to be kept there.

The jury praised the rest rooms and spoke highly of the condition in which they were in, but recommended a coat of paint on the ceilings to harmonize with the rest of the rooms.

At the county farm, the jury found the inmates contented and satisfied with Superintendent Job, although they were dirty and showed indication of an utter disregard of their own personal cleanliness. The report says when they get a bath the Superintendent has to take them in charge and bathe them. They recommend some additional rocking chairs for some of the rooms.

Other recommendations for the county farm were a new heating system be installed before next winter as the present one is entirely inadequate to properly heat the building, and more light be given in the dining rooms.

The jury was not very much impressed with the jail according to their report.

The witnesses before the grand jury yesterday afternoon were Isaac Dowis, husband of the late Mrs. Dowis, Mr. and Mrs. Samuel J. Nash, of New Virginia, Ia., Mrs. Nash being a sister of Mrs. Dowis, W. W. Scarlett, Reed Gross and William DeVore.

The report of the jury follows:

We, the undersigned Grand Jurors, summoned for the January Term of Court, 1917, submit the following report:

We inspected the building at the Poor Farm, the outward appearance of which is good, except for some of the downspouts which are disconnected and gone; these we recommend be replaced and put in serviceable condition; We found the inmates contented and satisfied with the Superintendent, both as to the care they receive and their food. We found most of the inmates to be dirty and showing every indication of an utter disregard of their own personal cleanliness, altho well supplied with modern conveniences for this purpose; when they get a bath the Superintendent has to take them in charge and bathe them. We recommend some additional rocking chairs and a few chairs for some of the rooms.

We find the present heating system entirely inadequate to properly heat the building to be comfortable for those therein; We found the front room, the women's and men's sitting rooms all supplemented with heating stoves; We recommend that before another winter comes some system be devised and installed whereby the building can be adequately heated and kept comfortable, and if necessary, incorporate another heating system in conjunction with the one already in use.

The light is very deficient in both dining rooms; they extend a dark and chilly reception to those entering, hardly a meal is served but that the lights have to be lit; this is not as it should be, and we recommend that some way be devised whereby a skylight or additional windows with prism glass can be constructed so these rooms can be amply lighted.

We visited the County Jail; the residence part we find in fair condition with the exception of some minor repairs; That part of the Jail where the men are confined, we found to be very dark, not even sufficient light with which to read, very cold, with only three small radiators in this part of the Jail, the windows loose, and around which the prisoners had stuffed rags and pieces of clothing to keep out the chilly winds; the sanitation in this room is not good; there are a number of cracks and breaks in the walls, there is no place to keep separate the younger unfortunates from the more hardened criminal, they must all associate together. This part of the building leaks in many places; the

ARREST JOHN DOWIS

SON OF MRS. IKE DOWIS CHARGED WITH POISONING HER.

GRAND JURY INDICTMENT

Analysis of Castor Oil Bottle and the Stomach of Dead Woman Revealed Poison—Deputy Makes Arrest.

The Grand jury this morning returned an indictment, charging John Dowis with poisoning his mother, Mrs. Ike Dowis, who came to her death suddenly on the morning of January 11, after taking a dose of castor oil.

Dowis was arrested this afternoon by Deputy Sheriff Albert Dowden at his home near Sheridan and was locked up in jail.

An analysis of the contents of the castor oil bottle and also of the stomach of Mrs. Dowis was made and poison was found.

It is understood Dowis has employed Shinabargar, Blagg & Ellison of this city and Kelso & Kelso of Grant City to defend him.

Mrs. Dowis, who was 60 years old, had been in ill health for about two years. She was taking treatment for a severe cold during that week and one morning took a dose of castor oil. Three mornings later she said she felt better and got up, although she was unable to get breakfast. Mr. Dowis made the coffee and brought her a cup together with the bottle of castor oil, from which she had taken the previous dose, and a spoon.

She poured the castor oil into the spoon and put it into the cup. Then she drank it. When she had swallowed it she remarked, "My, that castor oil was as bitter as gall."

Her husband left the room a moment, and when he returned, Mrs. Dowis said, "Help me to bed. I feel as if I would faint or have a fit."

Mr. Dowis and Mr. Lewellen, a half-brother of Mrs. Dowis, who came in at that moment helped the woman to bed immediately and she began to have convulsions. Doctor E. P. Nesbitt of Sheridan was sent for, but she died before he heached the house. She seemed to think she had been poisoned, all of her remarks in moments between the convulsions pointing to her belief. Her last words were: "I have been poisoned."

REPRESENT NORMAL

C. M. SAVILLE TO K. C. FOR THE INDOOR TRACK MEET.

TO BE HELD ON MARCH 3

Maryville Representative Has Splendid Record, Having Won Three Firsts in Previous Meets.

C. M. Saville, 22, of Grant City, now attending the State Normal school in Maryville has been entered in the 1,000-yard handicap race at the Twelfth Annual Indoor Track Meet to be held at Kansas City, March 3, by Walter Hanson, director of Athletics at the Normal.

Saville has a record that will place him in a high position among the contestants in this particular event. In the Northwest Missouri Inter-High School Meet at Maryville, he won first place, breaking the association record, time 4:49. In the half mile race at the same meet he won first place, his time being 2:09 4-5. At the Missouri State High School Meet in Columbia May, 1914, he won first place in the mile race, his time being 4:47 4-5.

In order to compete in any of the events of this track it was necessary for Saville to join the Amateur Athletic Union which places him in competition with the athletes of Illinois, and New York Athletic clubs. In addition to these he will compete with entrants from the Missouri Valley Colleges and the Missouri State Colleges.

The Indoor Track Meet at Kansas City is considered one of the most important in this section of the country. About five hundred athletes from all parts of the United States enter the events, and competition between men sent from eastern colleges and those sent by the western colleges is especially keen. Bob Simpson and Joe Loomis, holders of world records will be the stars of the meet.

ITALIAN STEAMER ARRIVES

Dante Alligheri at Genoa After Long Voyage to Avoid the Submarines.

Special to The Democrat-Forum.

New York, Feb. 10. — The Italian steamer, Dante Alligheri, with eight Americans aboard arrived safely at Genoa, according to an announcement sent in a cable which came today. The steamer was much overdue on account of the zig-zag course it took to avoid submarines.

The agents of the Scandinavian-American line received by cable permission from the home office to allow Frederick Eighth to sail with the Bernstorff suite for Copenhagen. The vessel will probably sail Tuesday or Wednesday.

A MOMENTOUS WEEK

W. C. VAN CLEVE TELLS OF HAPPENINGS IN CONGRESS.

THE IMMIGRATION BILL

Says Advocates of the Measure Passed It Because it is the Best Test Yet Proposed.

(By W. C. Van Cleve)

Washington, D. C., Feb. 6, 1917. — Last week was a week of momentous developments in legislative circles. Representative Kitchin's revenue bill, entitled "a bill to provide increased revenue to defray the expenses of the increased appropriations for the army and navy and the extensions of fortifications," led off and was passed after a sharp fight over the solid opposition of the Republican side of the House. Representative Kitchin did not favor such enormous appropriations for preparedness last year and, in writing a bill to raise the money to pay the expenses of increased preparedness, he took the position that those who clamored the loudest for preparedness, the munition manufacturers, steel mills, and those profiting enormously because of same, should pay a major part of the tax that must follow.

An idea seems to have grown up throughout the country that the Federal Government has some mysterious way of turning air into money. As a consequence people of all classes have frowned upon the old idea of economy in legislation and the doctrine of a government "economically administered," has been for the time at least consigned to the scrap heap. So long as the Government is a gov-

U. S. ADOPTING A NEW SLOGAN

"PREPARE FOR EMERGENCY BUT DON'T BE STAMPEDED."

SUBMARINE MENACE MAY BE LESSENING

Fact That British And French Navies Are Fully Active Is Tending to Reduce Casualities.

Special to The Democrat-Forum.

Washington, Feb. 10.—"Prepare for any emergency that may arrive, but decline to be stampeded." This was the slogan of the administration adopted in regard to the new German campaign. If Germany forces the President's hand by an "overt act" then Congress will be asked to authorize any and all means to "protect Americans and their rights."

Submarine Menace Less?

London, Feb. 10.—The hope that the German submarine menace is lessening beneath the growth of the activity of the British and French navies rose today from the fact that only six vessels were reported sunk Friday. Four lives are known to have been lost. The toll during the nine days of the submarine warfare was seventy-five vessels.

Heavy Bombarding on Somme.

London, Feb. 10.—The newly won ground of the British in the Somme sector was heavily bombarded by the Germans last night, a dispatch from the front says. That Germany's explanation of the detention of Gerard will fail to satisfy the United States was the opinion expressed in the British papers today.

More Ships Sunk.

London, Feb. 10.—An American negro and three Englishmen members of the crew, Dauntless, have landed on the Spanish coast. The British steamship, Lullington of 2,800 tons was submarined today but the crew was saved.

Lloyds report the sinking of a Norwegian ship, Soldbken, with a loss of two of her crew and also of the British steamship, Mantola, which went down in the barred zone.

Fire in Navy Yards.

New York, Feb. 10.—Fire was discovered in the first gun deck of the super dreadnaught, New Mexico now under process of construction in the navy yards. A heavy guard was placed around the yards. The blaze was small.

Destroyed 15 Ships.

Berlin, Feb. 10.—A German submarine just returned announced the destruction of fifteen ships. Heavy losses attended the renewal of the British offensive on the Somme says the Overseas News Agency. The evacuatio of Grandcourt by the Germans has been admitted. Violent artillery duels are raging all along the western front. At Verdun the French detachments

brick work shows a deteriorated condition, the furnace while consuming an enormous amount of fuel utterly fails to sufficiently heat the building; the toilet conditions are bad and no provision for taking a bath. For the Jail we would not recommend any repairs, but to the Citizens of Nodaway County we would recommend that a movement be started for the purpose of building a new Jail that is modern, sanitary and healthy for the improvement of those confined therein; not a large Jail for many prisoners, but for the few that may have to be kept there.

Our visit to the Ladies' Rest Rooms was a pleasure; we found these rooms extremely neat and clean with everything in order and very inviting; we would recommend for them a coat of paint on the ceilings which are not in keeping with the otherwise nice appearance of the rooms, and especially do we recommend to the Ladies of Nodaway County their use of these rooms; they are here for your use and comfort; If you have never used them you have missed a pleasure when you have been to the County Seat.

WALLACE COTTAGE BURNS

Five-Room Dwelling at Clearmont Occupied by Stewarts Destroyed.

A five-room cottage, owned by Brice Wallace and occupied by Ross Stewart of Clearmont, burned to the ground today. How the fire originated is not known, but it was thought to have started from the kitchen. The fire was well under way before discovered, as Mrs. Ross was in the front part of the house and the rest of the family was not present. Nearly all of the furniture was destroyed. The loss on both the house and the furniture was partly covered by insurance.

Out of Town Visitors.

Gus King, Leo Ruggel, Tom McGary, Tom Cunningham, A. G. Schieber, Tony Shaffer and Frank Gerg of Conception Junction, Tom Archer of Clyde, Hubert Corken of Burlington Junction, George and Ermie Hackett of Pickering and John Risban of Arkoe, are in Maryville today.

God Gave You Health. Thank Him For It. Go to Church.

SOME people never think of God until a loved one is ill or a great trouble besets them. Then they seek the SOLACE OF RELIGION. A clergyman is called in, and prayers are said at the bedside for the loved one's recovery. God is MERCIFUL, and ofttimes these prayers are answered, and the loved one recovers.

IT IS NOT FAIR TO GOD, HOWEVER, TO ASK HIM TO REMEMBER YOU WHEN YOU HAVE FORGOTTEN HIM. WHEN EVERYTHING IS GOING ALONG SMOOTHLY AND THE WORLD LOOKS BRIGHT SOME MEN FORGET THERE IS A GOD. THEY NEVER GO TO CHURCH. WHILE THEY WILL RESENT THE CHARGE THAT THEY WOULD OPENLY OFFEND GOD, THEY OFFEND HIM DEEPLY BY NOT GOING TO CHURCH. THE SUCCESSFUL MAN SHOULD GO TO CHURCH TO THANK GOD FOR HIS WORLDLY GIFTS. THE SUPREME BEING GAVE HIM ALL HE HAS—LIFE, HEALTH, HAPPINESS—AND HE SHOULD THANK HIM FOR THEM.

Thanks to the GO TO CHURCH movement, there has been a religious awakening over the land. RELIGION NEVER WAS DEAD. All that it required was a stimulus, and that stimulus was provided by the GO TO CHURCH campaign. It should not be necessary to urge men to GO TO CHURCH. There isn't an argument that can be advanced by any man who believes in God in favor of staying away from church. Take away the churches and you will have a condition bordering on anarchy.

The man who GOES TO CHURCH is prepared to MEET ANY CRISIS, moral, physical or financial. His faith in a Supreme Being sustains him in the most severe trials.

FOURTH MAY COME HOME

Possibility That Missouri May Be Mustered Out Within A Very Short Time.

That there is a possibility that the Fourth Missouri infantry, stationed at Laredo, Tex., may be mustered out of the federal service within a short time, is intimated by an order received by Sergeant Max Habecker, this morning, directing him to report by letter to the commanding general, central department, Chicago, for immediate muster out. The order was dated February 3, 1917, and came pursuant to instructions from the war department.

Sergeant Habecker returned to St. Joseph last Tuesday on a furlough and said that he had been instructed to remain in St. Joseph until further orders. Other men of the regiment here on furloughs have received similar instructions and the furloughs of a number of them have been extended thirty days, to await the movements of the regiment and report to Fort Riley, Kan., when it is sent there for mustering out.

In case the Fourth Regiment should not be released from the federal service at this time, it will be necessary for the men on furlough to return to Laredo, of course. It appears, however, that the original order to muster out, deferred as a result of an epidemic of measles among the men, would stand and the Fourth Missouri boys are expected to all be at home some time before the bluebirds come.

At a meeting last evening, between President Richardson, Professor H. A. Miller and the officers of the literary societies, plans for the spring inter-society contests were made. This year the Excelsiors expected to compete in all lines. Last year they competed only in the Oration and Reading. With three societies in the debate it necessitates changes. They decided that each society would debate two nights on different questions. They have the privilege of selecting two teams or permitting one team to debate on the two questions. According to their reports last evening they will pick their teams soon so that they may have plenty of time to prepare. The subjects are to be announced soon. There will be three questions, so that any debater hearing another debate will have no advantage over him.

They also decided to have a contest in extemporaneous speaking in connection with the other contests. This will make them continue over three nights. Debating, and one of Reading, Oration or Extemporaneous Speaking taking place each night.

TAX BILL TO BE PASSED

Secured Debt Measure Is Now on Its Final Passage in the House, After Strenuous Fight.

Special to The Democrat-Forum.

Jefferson City, Feb. 10.—The secured debt tax bill is now on its way to final passage in the House. The measure has passed on to engrossment after a strenuous fight in its behalf made by Democratic Floor Leader Frank H. Farris, who introduced the bill.

The measure is aimed to tax bonds, whose holders under the present taxation system record their bonds in other states to escape local city or county taxes, which make their possession unremunerative.

Representative Farris explained that the measure was aimed to get at the so-called "invisible wealth," of bondholders, by providing a law which would induce them to register their bonds with the state auditor and pay a mill tax.

Engrossment of the bond tax measures was the fourth victory of the Gardner administration in the House, being preceded by the engrossment of the tax commission act, the Hawes road bill and the Farris raised saloon tax.

PERUNA in Your Home

A housewife must give the first aid in colds, coughs and other ailments. Her promptness in applying the remedy often saves a serious illness. Her experience with remedies has led her to know that PERUNA is always reliable, that she should have it on hand for the immediate treatment of coughs and colds, and that it is always to her

Mrs. George Parker, 4.2 Water St., Menasha, Wis., writes: "We have used Peruna in our family for a number of years, and have found it a perfectly reliable medicine. It soon rids the system of any traces of a cold, and prevents serious consequences.

"I began using it for catarrh, which I suffered with a good many years, but had not been very serious until recently. Since I have taken Peruna the dropping in my throat has discontinued, and my head and nose are not so stopped up in the morning. I am pleased with the results, and shall continue to use it until I am entirely rid of catarrh.

"I gladly recommend it as an honest medicine." What it does for her it is ready to do for you.

The Family Safeguard

The experience of one woman, given herewith, is typical of thousands of letters that reach the Peruna Company from grateful friends who have found their homes incomplete, and their family safety in danger without PERUNA.

Colds and Catarrh

The great weight of testimony that has accumulated in the 44 years that PERUNA has been on the market proves it, beyond question, to be the reliable family remedy, ever ready to take, preventing the serious effects of colds, coughs, grip and derangements of the digestive organs. This proof is published from time to time and many families have proved by it.

Remember you can obtain PERUNA in tablet form for your convenience. Carry it with you and be forearmed against sudden attacks.

Lincoln "Wide Awakes" of 1860

ONE of the peculiar introductions into the first Lincoln political campaign was the Wide Awake marching clubs, which, it has been claimed, went very far toward winning for him the election. These political marching bodies met with so much success that the custom was continued for more than a score of years thereafter, says the Philadelphia Press.

The uniform of the Wide Awakes consisted of a cap and a large cape of enameled cloth, and each one carried a torch. The capes were of a variety of colors, and naturally a procession of Wide Awakes was picturesque and striking. Many of the clubs had "Wide Awakes" stamped upon the capes as well as other insignia. The torch was a small tin fount with a burner and wick for kerosene fastened to a stick about the size and length of a broomstick. Toward the end of this campaign a few companies came out with a swing torch.

The Wide Awakes were carefully drilled by their captains, and many of them on parades would go through intricate evolutions. These clubs were organized all over the country, and if an outlying town or village had a procession or flag raising the clubs of the vicinity were supposed to turn out and frequently marched several miles in doing so. It has been estimated that there were more than 2,000,000 voters in duly organized Wide Awake clubs.

Some historians have made the assertion that it was the Wide Awakes that elected Lincoln, and this is probably not very far from the truth. The movement seemed to be a spontaneous outburst of the people from one end of the north to the other. Every town, village and city had its company of Wide Awakes, marching, drilling and maneuvering.

The Wide Awakes organization grew out of the first campaign meeting in Hartford, Conn., on Feb. 25, 1860—the state election campaign. Hon. Cassius M. Clay was the speaker, and after the meeting was escorted to the Allyn House by a torchlight parade. Two of the young men who were to carry torches—D. G. Francis and H. P. Blair—being dry goods clerks, in order to protect their clothing from dust and oil liable to fall from the torches, had prepared capes of black cambric, which they wore in connection with the glazed caps commonly worn at the time.

"WIDE AWAKES" ON PARADE.

Colonel George P. Bissell, who was marshal, noticed the uniform, put the wearers in front, where the novelty of the rig and its double advantage of utility and show attracted. It was proposed at once to form a campaign club of fifty torch bearers, with glazed caps and oilcloth capes instead of cambric. A meeting to organize formally was appointed March 6, but before the new uniforms were ready Abraham Lincoln addressed a meeting in Hartford on the evening of March 5. After his speech the cap wearers of the previous meeting, with a number of others who had secured their uniforms, escorted Mr. Lincoln to the hotel.

The club was definitely organized on the following night. Just one year thereafter this club attended the inauguration of Lincoln in a body. The Wide Awakes were organized by both political parties in later campaigns.

Rebuked by Lincoln.

Dr. Grenville M. Weeks of Newark, N. J., who was wounded on the Monitor, went to Washington to apply for appointment on the medical staff of the army. Secretary Stanton gave him no encouragement.

Dr. Weeks heard that President Lincoln was holding a reception and crossed over to the White House to pay his respects. As he was about to enter the room where Lincoln was standing an officer gruffly told him to fall in at the end of the line.

Lincoln overheard the order. He recalled Dr. Weeks and, turning to the officer, said:

"Hereafter, whether the caller is an officer or private, major, be a gentleman," separating the syllables of the last word and emphasizing the first two.

Then, turning to Dr. Weeks, the president said:

"You are wounded, sir. There's a place for you, however, if you can use your head."

BEST TEAM WON

HOME BOYS LOSE TO SUPERIOR OPPONENT 41-18.

GAME GOOD TO WATCH

Best Part of Game From Maryville Standpoint Was the Attendance —Gate Receipts Large.

41-18 in favor of Albany—and the best team won. That tells the story of last night's basketball game on the Normal court between the High school teams of Maryville and Albany.

Every man on the Albany team was of the tall rangy type. They were superior in height and weight to the Maryville team and they soon showed that they were not lacking in speed. It was learned last night that the team had lost only one game this season. This game was played on Grant City's court and was lost only by two points. They defeated the same team on their own court and also hold two victories over King City, doubling the score each time.

Outside of the fact that the strong team won, the game last night was a good one to watch. The Maryville team, however, was completely off form and especially Egley. They put up a fair game in the first half but in the second they "went all to pieces." The score at the end of the first half was 16-11 in Albany's favor.

Time after time Egley missed shots that ordinarily would have been "pie" for him. A glance at the box score will tell how badly off form the whole team was. Out of more than twenty-five chances for foul goals, Egley threw four, Condon one, and Holmes one, a total of six.

Egley shot only two field goals, both in the first half. Groppe shot two and Condon and Holmes got one each. That completed the scoring for Maryville.

For Albany Patton and Shelby were the heaviest point scorers. Patton made eight field goals and Shelby seven. Shelby also threw seven free throws. Richter and Lainhardt each made one field goal. The two guards, Flowers and Adams, covered the Maryville forwards like a blanket. As a whole, it was the best high school team that has appeared here in some time.

The line-ups for the two teams:

Maryville—Forwards, Egley, Condon and Holmes; center, Groppe; guards, Woodward and Martin.

Albany—Forwards, Patton and Shelby; center, Richter and Lainhardt; guards, Flowers and Adams.

The best part of the game from a Maryville standpoint was the attendance. Gate receipts were large enough to pay all expenses of the game without breaking into the season ticket fund.

The good attendance was largely due to the efforts of the "Dutch Band" of the High School which led the parade through town yesterday afternoon and also entertained the crowd while they were waiting for the appearance of the Albany team which was almost two hours late in arriving.

Do You Want Ready Money

Here's The Way

Many persons live in the hope that money will some way or other come their way. They don't even make an effort to increase their ready money by an easy method of which anyone may take advantage, and that is consistent saving.

Consistent saving has built more fortunes and has laid aside more ready money than any other means yet used.

If you yourself, have not already adopted this method, don't put it off any longer, because the longer you put it off the longer you will go without ready money.

In fact consistent saving has put a whole lot of fellows on the ready money map, who didn't ever make a showing before. But right now's the time to get into action.

ernment, and not a commercial enterprise, there is nothing clearer than that the money spent by the Government must be paid by the people in the way of taxation.

Under the bill passed by the House, an issue of bonds is authorized to cover the expenses of the army in Mexico and along the border and the purchase of the Danish West India Islands. The remainder needed is to be raised by the income tax, an inheritance tax and what is known as the "surplus profit tax." The latter covers the concerns that are making enormous profits. It allows corporations first an exemption of $5,000 and then eight per cent on the capital invested. After these are taken out, the concern must then pay a tax of eight per cent of the remaining profits. This is all in addition to the regular corporation and income tax which is already in force. The Democrats believed with Mr. Kitchin that those making surplus profits beyond $5,000 and eight per cent should bear the burden of the protection given them. The Republicans opposed the bill and proposed that the money should be raised by bonds and a higher protective tariff.

* * *

The fortifications appropriation bill was passed carrying the largest amount in the history of the Government for fortifications and coast defenses. The bill carried more than $60,000,000. Last year the bill carried nearly $25,000,000 but prior to that time about six million dollars was the amount usually appropriated. The present bill was of course made necessary by the authorizations and plans adopted last year.

* * *

The passage of the immigration bill over the President's veto by both the Senate and House ends a twenty-year fight over the literacy test, the point around which its opponents made their fight. An immigration bill with a literacy test was vetoed by President Cleveland. Later on a similar bill was vetoed by President Taft. President Wilson has twice vetoed the immigration bills passed during his term as President but each time the bill has seemed to gather strength. The opponents of the measure objected to what is known as the literacy test which required immigrants seeking admission to this country to be able to read a certain number of words in some language. The critics of the bill claim that literacy is no indication of a man's honesty of purpose. The advocates of the bill admit that education is not a perfect test but that it is the best yet proposed and that while education does not make a good man of a bad one, it is of general advantage and is in fact essential to the best citizenship. The percentage of illiterates in prisons seems to bear out the contention that education is something of a preventive aginst crime. This is perhaps due to the fact that men of education are better able to meet the burdens of life and that many crimes are committed through ignorance of the law and the consequences of its violation.

The present bill is more liberal than some of its predecessors. It permits men admitted to citizenship to send for dependent relatives of various degrees regardless of whether they are able to read or not. Mr. Burnett, the author of the bill, has claimed that none of the northern countries of Europe will be in any way annoyed by its provisions. He claims that lack of education is largely a matter of climate. The people of Europe, including all such countries as England, Ireland, Scotland, France, Germany, Belgium, Norway, Sweden and others down to and including northern Italy have ample facilities for moderate education and generally avail themselves of such opportunities, but in Southern Italy, Sicilly, Corsica, Turkey, and the countries of that belt is where you find an increase of illiteracy and a disposition to neglect education. Our largest immigration of late years has been coming from these sections. The bill has passed both houses by more than the required two-thirds majority and is now the law of the land.

* * *

Another bill that passed the House last week of more than ordinary import is the bill making Alaska dry. This bill also passed by such a large vote as to make its opponents sit up and take notice. The fact that the people of Alaska had voted upon the matter themselves and had voted dry, had something to do with the majority in its favor here but the sentiment is growing and the dry territory is gradually closing in on the wet area.

A bill passed the Senate some time ago providing for prohibition in the District of Columbia which will very likely pass the House if it can be brought to a vote during this session. It is lodged in the Committee on the District of Columbia and this committee is not favorable to the proposition. They have however begun a series of hearings on the bill and may or may not report it out. There is a vast amount of important legislation to come before the House during the few remaining days of this session. The present critical situation with regard to our foreign affairs renders an extra session not at all likely.

The stunts put onat the pep assemblies at the High School are very original and amusing. The assembly given yesterday was the best that has thus far been given. The team of "future greats" which appeared at the assembly before the Stanberry game was again present. They gave a drill in the course of which they brought home to the audience very forcibly that "We-Will-Beat-Albany-tonight."

Those who took part were: William Engelmann, Creston Maul, Edward Fitzgerald, Cecil Bell, Erma Colver, Ora McPherron and Frank Roelofson.

The music for the occasion was furnished by the Dutch Band which has just been organized by Coach Schultz. In spite of the fact that the first meeting was held Thursday night, the band can play real music and with only a reasonable number of discords. Drum major Elmer Allen deserves great credit for the way in which he has drilled his troupe.

The following are the members of the band: Elmer Allen, drum-major; Louis J. Schultz, Lester Masters, Harold Adle, Lynn Wallace, James Robinson, Edward McPherron, Harold Stafford, Ralph Yehle, Clarence Cook, Ray Maul, Ferd Masters and Nile Selecman.

With each member appropriately costumed the band made a striking appearance. After the assembly the band led the students up town in a parade advertising the game.

Toward the end of last semester it was decided by a vote of the student body that hereafter the class pins worn by the graduating classes should be of the same design. The pin committee selected by the different classes met Thursday evening after school to get together on selecting a standard pin, but accomplished nothing definite. The members of the committee are: Eugene Martin, Erma Greene, Leska Wray, Elmer Allen, Alice Peery, Ray Hull, Helen Curfman, Helen Hankins. Miss Mabel Wells represents the faculty.

President Richardson of the Normal gave a very instructive talk at assembly last Tuesday morning.

The members of the new staff for the "High School Opinion" are being selected by Miss Keeler and Mr. Burger of the English department. Besides the regular staff, each class has been allowed to choose a representative.

The High School is venturing into new fields of inter-high school competition. A boys' quartet has been formed and is being trained by Miss Rooker to take part in a contest of that kind at the time of the Declamatory contest next spring. The members of the quartet are: Donald Hagins, Clarence Cook, Emmett Bartram, and Eugene Martin.

HAWES ROAD BILL PASSES.

Measure Goes Through House With Vote of 104-26—Job Votes "No."

Jefferson City, Feb. 9.—Howes' road bill No. 5, highway measure of the session was passed in the house today by a vote of 104 to 26. All of the Buchanan county members voted for it. Other representatives of northwest Missouri counties who cast affirmative votes were: Chestnut of Platte, James of Andrew and Wiley of Charlton. Job of Nodaway, Kunkel of Holt and Warrick of DeKalb county voted "No."

This is the bill which seeks to place Missouri in line to receive $2,500,000 of federal money for road purposes in the next five years.

WILL CHANGE AUTO LAWS

Buford Bill to Increase the Cost of Licenses—Will Benefit Car Owners in the State.

Special to The Democrat-Forum.

Jefferson City, Feb. 10.—Drastic changes in the State automobile laws soon will be made. The Senate subcommittee on Ways and Means has been assigned the work of making changes in the automobile laws and very shortly will commence work on the Buford bill which contains features recommended by Governor Gardner.

The Buford bill would increase the cost of licenses. Light cars, from 12 to 24 horse power, would have to pay $6 a year instead of $3 as now required by law. Cars from 36 to 48 horse power would be charged $5 to $8; from 48 to 60 horse power, $8 to $12; from 60 to 72 horse power, $10 to $12. From 73 horse power upward, $12 is the maximum charge.

The Buford measure also would provide that a State license would bar cities from imposing a municipal license. In this connection owners of heavy vehicles in the cities would effect a great saving.

Roy P. Brittain, of the St. Louis Automobile club and Frederick C. Hoover of the Kansas City Automobile club, are co-operating with the sub-committee in an endeavor to work changes in the present law that will be of benefit to car users throughout the state.

The sub-committee is composed of Senator Buford, of Reynolds; Elder of St. Louis; and McClintic, of Monroe.

ELECTION AT PENITENTIARY

Convicts at Jefferson City Chose Men To Carry Out the "Honor System" Project.

Special to The Democrat-Forum.

Jefferson City, Feb. 10.—The Missouri Penitentiary today held its first election. The election was strictly private, however, only convicts being permitted to cast ballots.

The election was held to permit the inmates to select nine convicts who will constitute a committee for making rules under which the "honor system" will be introduced into the prison. In formulating the rules the committee will make every effort to meet the exigencies of prison life.

When completed the rules will be submitted to Warden Painter and the State Board of Prison Inspectors for approval.

The "honor system" first attracted public attention when Thomas Mott Osborne, former warden of Sing Sing Prison, brought it into use at the New York State institution several years ago.

J. H. Neal	Sherman Heflin
Ed Husband	John Jorgenson

Following the selection of the forty qualified jurors from the 100 talesmen summoned to appear in circuit court in the Gilmore murder trial Judge Dawson announced that the case would be continued until 9 o'clock Monday morning when the twelve trial jurors will be selected. In the selection of the forty qualified jurors ninety-two were examined.

The selection of the trial jurors will be carried on by the process of elimination. The prosecution has the privilege of eliminating eight men of the forty, while the defense may take the names of twenty from the list. This leaves the required twelve to occupy the jurors' box during the trial.

Charles F. McCaffrey has been employed to assist Prosecuting Attorney Sawyers in this case.

At Monday morning's session after the reading of the twelve jurors, Prosecutor Sawyers will make the opening statement, giving a general outline of the state's case. The statement for the defense will probably not be made at this time, as this right will be reserved until after the state's evidence is introduced.

After the opening statement, witnesses will be examined. The state's witnesses are Mrs. Blanche Palfreyman and Miss Marie Shipps, daughters of Mrs. Ella Shipps; Mrs. Ed Wallace, Ed Wallace, Glen Reece, Ed Goforth, Tom Gile, Mark Dalrymple, Bert Mack, Orville Ernest, Emmett Scott, Dock Cummins, Fred Diss, Dr. Will Wallis, Jr., Dr. Frank Wallis, Mrs. Ed Johnston, J. H. McCaffrey, Calvin Burch and Ed Mann.

Willis Oxley and Ol Coleman, two of the jurors, who qualified with the necessary forty, were allowed to go home because of sickness in their families.

The closing hours of the session yesterday afternoon were devoted to the selection of the nine jurors necessary to complete the forty that are first chosen and from which the trial jury is chosen.

Of the sixth panel William Stickel, William Sawyer, Newt Morgan, Ben Cooper, Marion Gray, George Gaugh, and L. A. Nigh disqualified because of conscientious scruples in regard to the inflicting of the death penalty.

Frank Hinton, who lives nine miles northeast of Maryville, said that he had six children, was a member of the Methodist church, had read the account of the murder in the News-Press, had discussed the affair, but had not formed any opinion. He qualified.

Burt McKee, a farmer living near Maryville, had read of the case but believed that there nas nothing to disqualify him from acting on the jury. The prosecution agreed to this.

James Farr of Ravenwood was passed by the prosecution but on being questioned by the defense admitted that since he knew the murder had been committed he would place the burden of explanation on the defense.

Carl Wray of Guilford said that he had read of the case, through the county and St. Joseph newspapers. He had talked with a person who said he was present at the scene of the murder. Mr. Wray said that he had formed a presumption rather than an opinion, which he felt that he could drop when he entered the jury box, and give the verdict with an open mind. He knew the members of the Shipps family when a postman in Maryville ten years ago.

Of the seventh panel, W. C. Aldrich, C. T. Sisson, Art Baker, William Linebaugh, Charles Simmons, C. C. McDermott, Fred Griffey, and James Horton were excused on account of conscientious scruples. Eight more men were immediately chosen, and two of these, F. A. Bloomfield and Robert Houston were excused for the same reason. William Bucker and J. L. Reddick, were excused because they had discussed the case with their neighbors since being summoned for the jury.

John Jorgenson of Barnard said that he had been out of the state at the time of the tragedy, and had formed no opinion. He had known Harry Shipps, but knew none of the other members of the family.

Art Fryar said that he could leave any opinion he had formed aside and could impartially judge the merits of the case by the evidence, because he had heard only rumors of the case.

Ben Cox, Harmony neighborhood, had based his opinion of the case entirely upon the newspaper accounts. He said that he could render an impartial verdict.

A. H. Pride had expressed nor formed no opinion of the case. He said he was acquainted with Q. A. Gilmore.

Del Appleby, living two miles north of Maryville, said he had an opinion based on newspaper reports and discussions, which purported to be facts. He felt that he would carry this opinion into the jury box and it would prevent him from viewing the testimony impartially. He was excused.

Sumner Carver, northeast of Elmo had never read or discussed the matter, and had formed no opinion. He qualified.

Lee Birkenholz was away from Missouri at the time of the murder, and had heard very little discussion of the case. He knew Harry Shipps, but not the family.

Sherman Heflin had discussed the matter, but felt that he could give the defendant a fair trial.

GRAND JURY REPORT

RECOMMENDS THE BUILDING OF A NEW COUNTY JAIL.

PRAISES THE REST ROOMS

Urges Their Use By the Women of the County — Brings in One Indictment.

The grand jury took final adjournment this morning after bringing in one indictment and reporting on conditions at the county farm, jail and the rest room. The jury recommends a movement be started for building a new jail that is modern, sanitary and healthy, not a large jail but one for the few that may have to be kept there.

The jury praised the rest rooms and spoke highly of the condition in which they were in, but recommended a coat of paint on the ceilings to harmonize with the rest of the rooms.

At the county farm, the jury found the inmates contented and satisfied with Superintendent Job, although they were dirty and showed indication of an utter disregard of their own personal cleanliness. The report says when they get a bath the Superintendent has to take them in charge and bathe them. They recommend some additional rocking chairs for some of the rooms.

Other recommendations for the county farm were a new heating system be installed before next winter as the present one is entirely inadequate to properly heat the building, and more light be given in the dining rooms.

The jury was not very much impressed with the jail according to their report.

The witnesses before the grand jury yesterday afternoon were Isaac Dowis, husband of the late Mrs. Dowis, Mr. and Mrs. Samuel J. Nash, of New Virginia, Ia., Mrs. Nash being a sister of Mrs. Dowis, W. W. Scarlett, Reed Gross and William DeVore.

The report of the jury follows:

We, the undersigned Grand Jurors, summoned for the January Term of Court, 1917, submit the following report:

We inspected the building at the Poor Farm, the outward appearance of which is good, except for some of the downspouts which are disconnected and gone; these we recommend be replaced and put in serviceable condition; We found the inmates contented and satisfied with the Superintendent, both as to the care they receive and their food. We found most of the inmates to be dirty and showing every indication of an utter disregard of their own personal cleanliness, altho well supplied with modern conveniences for this purpose; when they get a bath the Superintendent has to take them in charge and bathe them. We recommend some additional rocking chairs and a few chairs for some of the rooms.

We find the present heating system entirely inadequate to properly heat the building to be comfortable for those therein; We found the front room, the women's and men's sitting rooms all supplemented with heating stoves; We recommend that before another winter comes some system be devised and installed whereby the building can be adequately heated and kept comfortable, and if necessary, incorporate another heating system in conjunction with the one already in use.

The light is very deficient in both dining rooms; they extend a dark and chilly reception to those entering, hardly a meal is served but that the lights have to be lit; this is not as it should be, and we recommend that some way be devised whereby a skylight or additional windows with prism glass can be constructed so these rooms can be amply lighted.

We visited the County Jail; the residence part we find in fair condition with the exception of some minor repairs; That part of the Jail where the men are confined, we found to be very dark, not even sufficient light with which to read, very cold, with only three small radiators in this part of the Jail, the windows loose, and around which the prisoners had stuffed rags and pieces of clothing to keep out the chilly winds; the sanitation in this room is not good; there are a number of cracks and breaks in the walls, there is no place to keep separate the younger unfortunates from the more hardened criminal, they must all associate together. This part of the building leaks in many places; the

ARREST JOHN DOWIS

SON OF MRS. IKE DOWIS CHARGED WITH POISONING HER.

GRAND JURY INDICTMENT

Analysis of Castor Oil Bottle and the Stomach of Dead Woman Revealed Poison—Deputy Makes Arrest.

The Grand jury this morning returned an indictment, charging John Dowis with poisoning his mother, Mrs. Ike Dowis, who came to her death suddenly on the morning of January 11, after taking a dose of castor oil.

Dowis was arrested this afternoon by Deputy Sheriff Albert Dowden at his home near Sheridan and was locked up in jail.

An analysis of the contents of the castor oil bottle and also of the stomach of Mrs. Dowis was made and poison was found.

It is understood Dowis has employed Shinabargar, Blagg & Ellison of this city and Kelso & Kelso of Grant City to defend him.

Mrs. Dowis, who was 60 years old, had been in ill health for about two years. She was taking treatment for a severe cold during that week and one morning took a dose of castor oil. Three mornings later she said she felt better and got up, although she was unable to get breakfast. Mr. Dowis made the coffee and brought her a cup together with the bottle of castor oil, from which she had taken the previous dose, and a spoon.

She poured the castor oil into the spoon and put it into the cup. Then she drank it. When she had swallowed it she remarked, "My, that castor oil was as bitter as gall."

Her husband left the room a moment, and when he returned, Mrs. Dowis said, "Help me to bed. I feel as if I would faint or have a fit."

Mr. Dowis and Mr. Lewellen, a half-brother of Mrs. Dowis, who came in at that moment helped the woman to bed immediately and she began to have convulsions. Doctor E. P. Nesbitt of Sheridan was sent for, but she died before he heached the house. She seemed to think she had been poisoned, all of her remarks in moments between the convulsions pointing to her belief. Her last words were: "I have been poisoned."

REPRESENT NORMAL

C. M. SAVILLE TO K. C. FOR THE INDOOR TRACK MEET.

TO BE HELD ON MARCH 3

Maryville Representative Has Splendid Record, Having Won Three Firsts in Previous Meets.

C. M. Saville, 22, of Grant City, now attending the State Normal school in Maryville has been entered in the 1,000-yard handicap race at the Twelfth Annual Indoor Track Meet to be held at Kansas City, March 3, by Walter Hanson, director of Athletics at the Normal.

Saville has a record that will place him in a high position among the contestants in this particular event. In the Northwest Missouri Inter-High School Meet at Maryville, he won first place, breaking the association record, time 4:49. In the half mile race at the same meet he won first place, his time being 2:09 4-5. At the Missouri State High School Meet in Columbia May, 1914, he won first place in the mile race, his time being 4:47 4-5.

In order to compete in any of the events of this track it was necessary for Saville to join the Amateur Athletic Union which places him in competition with the athletes of Illinois, and New York Athletic clubs. In addition to these he will compete with entrants from the Missouri Valley Colleges and the Missouri State Colleges.

The Indoor Track Meet at Kansas City is considered one of the most important in this section of the country. About five hundred athletes from all parts of the United States enter the events, and competition between men sent from eastern colleges and those sent by the western colleges is especially keen. Bob Simpson and Joe Loomis, holders of world records will be the stars of the meet.

ITALIAN STEAMER ARRIVES

Dante Alligheri at Genoa After Long Voyage to Avoid the Submarines.

Special to The Democrat-Forum.

New York, Feb. 10. — The Italian steamer, Dante Alligheri, with eight Americans aboard arrived safely at Genoa, according to an announcement sent in a cable which came today. The steamer was much overdue on account of the zig-zag course it took to avoid submarines.

The agents of the Scandinavian-American line received by cable permission from the home office to allow Frederick Eighth to sail with the Bernstorff suite for Copenhagen. The vessel will probably sail Tuesday or Wednesday.

A MOMENTOUS WEEK

W. C. VAN CLEVE TELLS OF HAPPENINGS IN CONGRESS.

THE IMMIGRATION BILL

Says Advocates of the Measure Passed It Because it is the Best Test Yet Proposed.

(By W. C. Van Cleve)

Washington, D. C., Feb. 6, 1917. — Last week was a week of momentous developments in legislative circles. Representative Kitchin's revenue bill, entitled "a bill to provide increased revenue to defray the expenses of the increased appropriations for the army and navy and the extensions of fortifications," led off and was passed after a sharp fight over the solid opposition of the Republican side of the House. Representative Kitchin did not favor such enormous appropriations for preparedness last year and, in writing a bill to raise the money to pay the expenses of increased preparedness, he took the position that those who clamored the loudest for preparedness, the munition manufacturers, steel mills, and those profiting enormously because of same, should pay a major part of the tax that must follow.

An idea seems to have grown up throughout the country that the Federal Government has some mysterious way of turning air into money. As a consequence people of all classes have frowned upon the old idea of economy in legislation and the doctrine of a government "economically administered," has been for the time at least consigned to the scrap heap. So long as the Government is a gov-

U. S. ADOPTING A NEW SLOGAN

"PREPARE FOR EMERGENCY BUT DON'T BE STAMPEDED."

SUBMARINE MENACE MAY BE LESSENING

Fact That British And French Navies Are Fully Active Is Tending to Reduce Casualities.

Special to The Democrat-Forum.

Washington, Feb. 10.—"Prepare for any emergency that may arrive, but decline to be stampeded." This was the slogan of the administration adopted in regard to the new German campaign. If Germany forces the President's hand by an "overt act" then Congress will be asked to authorize any and all means to "protect Americans and their rights."

Submarine Menace Less?

London, Feb. 10.—The hope that the German submarine menace is lessening beneath the growth of the activity of the British and French navies rose today from the fact that only six vessels were reported sunk Friday. Four lives are known to have been lost. The toll during the nine days of the submarine warfare was seventy-five vessels.

Heavy Bombarding on Somme.

London, Feb. 10.—The newly won ground of the British in the Somme sector was heavily bombarded by the Germans last night, a dispatch from the front says. That Germany's explanation of the detention of Gerard will fail to satisfy the United States was the opinion expressed in the British papers today.

More Ships Sunk.

London, Feb. 10.—An American negro and three Englishmen members of the crew, Dauntless, have landed on the Spanish coast. The British steamship, Lullington of 2,800 tons was submarined today but the crew was saved.

Lloyds report the sinking of a Norwegian ship, Soldbken, with a loss of two of her crew and also of the British steamship, Mantola, which went down in the barred zone.

Fire in Navy Yards.

New York, Feb. 10.—Fire was discovered in the first gun deck of the super dreadnaught, New Mexico now under process of construction in the navy yards. A heavy guard was placed around the yards. The blaze was small.

Destroyed 15 Ships.

Berlin, Feb. 10.—A German submarine just returned announced the destruction of fifteen ships. Heavy losses attended the renewal of the British offensive on the Somme says the Overseas News Agency. The evacuation of Grandcourt by the Germans has been admitted. Violent artillery duels are raging all along the western front. At Verdun the French detachments

brick work shows a deteriorated condition, the furnace while consuming an enormous amount of fuel utterly fails to sufficiently heat the building; the toilet conditions are bad and no provision for taking a bath. For the Jail we would not recommend any repairs, but to the Citizens of Nodaway County we would recommend that a movement be started for the purpose of building a new Jail that is modern, sanitary and healthy for the improvement of those confined therein; not a large Jail for many prisoners, but for the few that may have to be kept there.

Our visit to the Ladies' Rest Rooms was a pleasure; we found these rooms extremely neat and clean with everything in order and very inviting; we would recommend for them a coat of paint on the ceilings which are not in keeping with the otherwise nice appearance of the rooms, and especially do we recommend to the Ladies of Nodaway County their use of these rooms; they are here for your use and comfort; If you have never used them you have missed a pleasure when you have been to the County Seat.

Respectfully submitted.

WALLACE COTTAGE BURNS

Five-Room Dwelling at Clearmont Occupied by Stewarts Destroyed.

A five-room cottage, owned by Brice Wallace and occupied by Ross Stewart of Clearmont, burned to the ground today. How the fire originated is not known, but it was thought to have started from the kitchen. The fire was well under way before discovered, as Mrs. Ross was in the front part of the house and the rest of the family was not present. Nearly all of the furniture was destroyed. The loss on both the house and the furniture was partly covered by insurance.

Gus King, Leo Ruggel, Tom McGary, Tom Cunningham, A. G. Schieber, Tony Shaffer and Frank Gerg of Conception Junction, Tom Archer of Clyde, Hubert Corken of Burlington Junction, George and Ermie Hackett of Pickering and John Risban of Arkoe, are in Maryville today.

God Gave You Health. Thank Him For It. Go to Church.

SOME people never think of God until a loved one is ill or a great trouble besets them. Then they seek the SOLACE OF RELIGION. A clergyman is called in, and prayers are said at the bedside for the loved one's recovery. God is MERCIFUL, and ofttimes these prayers are answered, and the loved one recovers.

IT IS NOT FAIR TO GOD, HOWEVER, TO ASK HIM TO REMEMBER YOU WHEN YOU HAVE FORGOTTEN HIM. WHEN EVERYTHING IS GOING ALONG SMOOTHLY AND THE WORLD LOOKS BRIGHT SOME MEN FORGET THERE IS A GOD. THEY NEVER GO TO CHURCH. WHILE THEY WILL RESENT THE CHARGE THAT THEY WOULD OPENLY OFFEND GOD, THEY OFFEND HIM DEEPLY BY NOT GOING TO CHURCH. THE SUCCESSFUL MAN SHOULD GO TO CHURCH TO THANK GOD FOR HIS WORLDLY GIFTS. THE SUPREME BEING GAVE HIM ALL HE HAS—LIFE, HEALTH, HAPPINESS—AND HE SHOULD THANK HIM FOR THEM.

Thanks to the GO TO CHURCH movement, there has been a religious awakening over the land. RELIGION NEVER WAS DEAD. All that it required was a stimulus, and that stimulus was provided by the GO TO CHURCH campaign. It should not be necessary to urge men to GO TO CHURCH. There isn't an argument that can be advanced by any man who believes in God in favor of staying away from church. Take away the churches and you will have a condition bordering on anarchy.

The man who GOES TO CHURCH is prepared to MEET ANY CRISIS, moral, physical or financial. His faith in a Supreme Being sustains him in the most severe trials.

FOURTH MAY COME HOME

Possibility That Missouri May Be Mustered Out Within A Very Short Time.

That there is a possibility that the Fourth Missouri infantry, stationed at Laredo, Tex., may be mustered out of the federal service within a short time, is intimated by an order received by Sergeant Max Habecker, this morning, directing him to report by letter to the commanding general, central department, Chicago, for immediate muster out. The order was dated February 3, 1917, and came pursuant to instructions from the war department.

Sergeant Habecker returned to St. Joseph last Tuesday on a furlough and said that he had been instructed to remain in St. Joseph until further orders. Other men of the regiment here on furloughs have received similar instructions and the furloughs of a number of them have been extended thirty days, to await the movements of the regiment and report to Fort Riley, Kan., when it is sent there for mustering out.

In case the Fourth Regiment should not be released from the federal service at this time, it will be necessary for the men on furlough to return to Laredo, of course. It appears, however, that the original order to muster out, deferred as a result of an epidemic of measles among the men, would stand and the Fourth Missouri boys are expected to all be at home some time before the bluebirds come.

At a meeting last evening, between President Richardson, Professor H. A. Miller and the officers of the literary societies, plans for the spring inter-society contests were made. This year the Excelsiors expected to compete in all lines. Last year they competed only in the Oration and Reading. With three societies in the debate it necessitates changes. They decided that each society would debate two nights on different questions. They have the privilege of selecting two teams or permitting one team to debate on the two questions. According to their reports last evening they will pick their teams soon so that they may have plenty of time to prepare. The subjects are to be announced soon. There will be three questions, so that any debater hearing another debate will have no advantage over him.

They also decided to have a contest in extemporaneous speaking in connection with the other contests. This will make them continue over three nights. Debating, and one of Reading, Oration or Extemporaneous Speaking taking place each night.

TAX BILL TO BE PASSED

Secured Debt Measure Is Now on Its Final Passage In the House, After Strenuous Fight.

Special to The Democrat-Forum.

Jefferson City, Feb. 10.—The secured debt tax bill is now on its way to final passage in the House. The measure has passed on to engrossment after a strenuous fight in its behalf made by Democratic Floor Leader Frank H. Farris, who introduced the bill.

The measure is aimed to tax bonds, whose holders under the present taxation system record their bonds in other states to escape local city or county taxes, which make their possession unremunerative.

Representative Farris explained that the measure was aimed to get at the so-called "invisible wealth," of bondholders, by providing a law which would induce them to register their bonds with the state auditor and pay a mill tax.

Engrossment of the bond tax measures was the fourth victory of the Gardner administration in the House, being preceded by the engrossment of the tax commission act, the Hawes road bill and the Farris raised saloon tax.

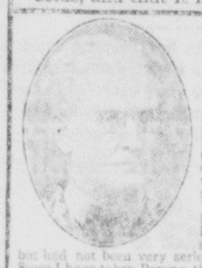
PERUNA in Your Home

A housewife must give the first aid in colds, coughs and other ailments. Her promptness in applying the remedy often saves a serious illness. Her experience with remedies has led her to know that PERUNA is always reliable, that she should have it on hand for the immediate treatment of coughs and colds, and that it is always to her



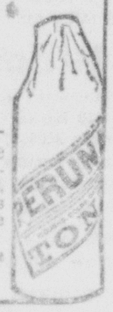
Mrs. George Parker, 447 Water St., Mendota, Ill., writes: "We have used Peruna in our family for a number of years, and have found it a perfectly reliable medicine. It soon rids the system of any traces of a cold, and prevents serious consequences.

"I began using it for catarrh, which I suffered with a good many years, but had not been very serious until recently. Since I have taken Peruna the dropping in my throat has discontinued, and my head and nose are not so stopped up in the morning. I am pleased with the results, and shall continue to use it until I am entirely rid of catarrh.

"I heartily recommend it as an honest medicine." What it does for her it is ready to do for you.

The Family Safeguard

The experience of one woman, given herewith, is typical of thousands of letters that reach the Peruna Company from grateful friends who have found their homes incomplete, and their family safety in danger without PERUNA.



Colds and Catarrh

The great weight of testimony that has accumulated in the 44 years that PERUNA has been on the market proves it, beyond question, to be the reliable family remedy, ever ready to take, preventing the serious effects of colds, coughs, grip and derangements of the digestive organs. This proof is published from time to time and many families have profited by it.

Remember you can obtain PERUNA in tablet form for your convenience. Carry it with you and be forearmed against sudden attacks.

Lincoln "Wide Awakes" of 1860

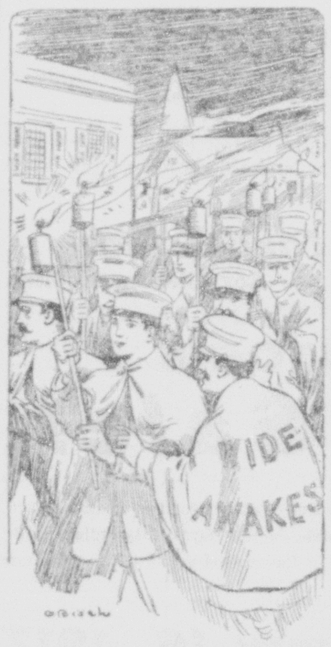
ONE of the peculiar introductions into the first Lincoln political campaign was the Wide Awake marching clubs, which, it has been claimed, went very far toward winning for him the election. These political marching bodies met with so much success that the custom was continued for more than a score of years thereafter, says the Philadelphia Press.

The uniform of the Wide Awakes consisted of a cap and a large cape of enameled cloth, and each one carried a torch. The capes were of a variety of colors, and naturally a procession of Wide Awakes was picturesque and striking. Many of the clubs had "Wide Awakes" stamped upon the capes as well as other insignia. The torch was a small tin fount with a burner and wick for kerosene fastened to a stick about the size and length of a broomstick. Toward the end of this campaign a few companies came out with a swing torch.

The Wide Awakes were carefully drilled by their captains, and many of them on parades would go through intricate evolutions. These clubs were organized all over the country, and if an outlying town or village had a procession or flag raising the clubs of the vicinity were supposed to turn out and frequently marched several miles in doing so. It has been estimated that there were more than 2,000,000 voters in duly organized Wide Awake clubs.

Some historians have made the assertion that it was the Wide Awakes that elected Lincoln, and this is probably not very far from the truth. The movement seemed to be a spontaneous outburst of the people from one end of the north to the other. Every town, village and city had its company of Wide Awakes, marching, drilling and maneuvering.

The Wide Awakes organization grew out of the first campaign meeting in Hartford, Conn., on Feb. 25, 1860—the state election campaign. Hon. Cassius M. Clay was the speaker, and after the meeting was escorted to the Allyn House by a torchlight parade. Two of the young men who were to carry torches—D. G. Francis and H. P. Blair—being dry goods clerks, in order to protect their clothing from dust and oil liable to fall from the torches, had prepared capes of black cambric, which they wore in connection with the glazed caps commonly worn at the time.



"WIDE AWAKES" ON PARADE.

Colonel George P. Bissell, who was marshal, noticed the uniform, put the wearers in front, where the novelty of the rig and its double advantage of utility and show attracted. It was proposed at once to form a campaign club of fifty torch bearers, with glazed caps and oilcloth capes instead of cambric. A meeting to organize formally was appointed March 6, but before the new uniforms were ready Abraham Lincoln addressed a meeting in Hartford on the evening of March 5. After his speech the cap wearers of the previous meeting, with a number of others who had secured their uniforms, escorted Mr. Lincoln to the hotel.

The club was definitely organized on the following night. Just one year thereafter this club attended the inauguration of Lincoln in a body. The Wide Awakes were organized by both political parties in later campaigns.

Rebuked by Lincoln.

Dr. Grenville M. Weeks of Newark, N. J., who was wounded on the Monitor, went to Washington to apply for appointment on the medical staff of the army. Secretary Stanton gave him no encouragement.

Dr. Weeks heard that President Lincoln was holding a reception and crossed over to the White House to pay his respects. As he was about to enter the room where Lincoln was standing an officer gruffly told him to fall in at the end of the line.

Lincoln overheard the order. He recalled Dr. Weeks and, turning to the officer, said:

"Hereafter, whether the caller is an officer or private, major, be a gentleman," separating the syllables of the last word and emphasizing the first two.

Then, turning to Dr. Weeks, the president said:

"You are wounded, sir. There's a place for you, however, if you can use your head."

BEST TEAM WON

HOME BOYS LOSE TO SUPERIOR OPPONENT 41-18.

GAME GOOD TO WATCH

Best Part of Game From Maryville Standpoint Was the Attendance —Gate Receipts Large.

41-18 in favor of Albany—and the best team won. That tells the story of last night's basketball game on the Normal court between the High school teams of Maryville and Albany.

Every man on the Albany team was of the tall rangy type. They were superior in height and weight to the Maryville team and they soon showed that they were not lacking in speed. It was learned last night that the team had lost only one game this season. This game was played on Grant City's court and was lost only by two points. They defeated the same team on their own court and also hold two victories over King City, doubling the score each time.

Outside of the fact that the strong team won, the game last night was a good one to watch. The Maryville team, however, was completely off form and especially Egley. They put up a fair game in the first half but in the second they "went all to pieces." The score at the end of the first half was 16-11 in Albany's favor.

Time after time Egley missed shots that ordinarily would have been "pie" for him. A glance at the box score will tell how badly off form the whole team was. Out of more than twenty-five chances for foul goals, Egley threw four, Condon one, and Holmes one, a total of six.

Egley shot only two field goals both in the first half. Groppe shot two and Condon and Holmes got one each. That completed the scoring for Maryville.

For Albany Patton and Shelby were the heaviest point scorers. Patton made eight field goals and Shelby seven. Shelby also threw seven free throws. Richter and Lainhardt each made one field goal. The two guards, Flowers and Adams, covered the Maryville forwards like a blanket. As a whole, it was the best high school team that has appeared here in some time.

The line-ups for the two teams:

Maryville—Forwards, Egley, Condon and Holmes; center, Groppe; guards, Woodward and Martin.

Albany—Forwards, Patton and Shelby; center, Richter and Lainhardt; guards, Flowers and Adams.

The best part of the game from a Maryville standpoint was the attendance. Gate receipts were large enough to pay all expenses of the game without breaking into the season ticket fund.

The good attendance was largely due to the efforts of the "Dutch Band" of the High School which led the parade through town yesterday afternoon and also entertained the crowd while they were waiting for the appearance of the Albany team which was almost two hours late in arriving.

Not A Hostile Act.

Washington, Feb. 10.—Arming neutral vessels for self-defense in no way constitutes a hostile act. The United States emphatically will insist on this right, whether its vessels are attacked on the high seas or not. This was made plain by Lansing today. It was officially announced that Bernstorff would sail Wednesday.

Miss Gehr Succeeds Miss Tilson.

Miss Cora Gehr has been appointed to take the place of Miss Vera Tilson as teacher in the Public schools. Miss Tilson resigned last week and will accept a position in the St. Joseph Public schools. Miss Gehr is a Maryville girl, a graduate of the State Normal school here and has had three or four years' experience in teaching. She has been employed as teacher at Pickering this year.

Lecture at Parnell.

William A. Crossland, secretary of the St. Joseph Welfare Board, spoke in the Parnell opera house Friday night on "Saving the Human Wreck." This was the fourth number of the Parnell Lyceum Course and was well attended.

Do You Want Ready Money

Here's The Way

Many persons live in the hope that money will some way or other come their way. They don't even make an effort to increase their ready money by an easy method of which anyone may take advantage, and that is consistent saving.

Consistent saving has built more fortunes and has laid aside more ready money than any other means yet used.

If you yourself, have not already adopted this method, don't put it off any longer, because the longer you put it off the longer you will go without ready money.

In fact consistent saving has put a whole lot of fellows on the ready money map, who didn't ever make a showing before. But right now's the time to get into action.

ernment, and not a commercial enterprise, there is nothing clearer than that the money spent by the Government must be paid by the people in the way of taxation.

Under the bill passed by the House, an issue of bonds is authorized to cover the expenses of the army in Mexico and along the border and the purchase of the Danish West India Islands. The remainder needed is to be raised by the income tax, an inheritance tax and what is known as the "surplus profit tax." The latter covers the concerns that are making enormous profits. It allows corporations first an exemption of $5,000 and then eight per cent on the capital invested. After these are taken out, the concern must then pay a tax of eight per cent of the remaining profits. This is all in addition to the regular corporation and income tax which is already in force. The Democrats believed with Mr. Kitchin that those making surplus profits beyond $5,000 and eight per cent should bear the burden of the protection given them. The Republicans opposed the bill and proposed that the money should be raised by bonds and a higher protective tariff.

* * *

The fortifications appropriation bill was passed carrying the largest amount in the history of the Government for fortifications and coast defenses. The bill carried more than $60,000,000. Last year the bill carried nearly $25,000,000 but prior to that time about six million dollars was the amount usually appropriated. The present bill was of course made necessary by the authorizations and plans adopted last year.

* * *

The passage of the immigration bill over the President's veto by both the Senate and House ends a twenty-year fight over the literacy test, the point around which its opponents made their fight. An immigration bill with a literacy test was vetoed by President Cleveland. Later on a similar bill was vetoed by President Taft. President Wilson has twice vetoed the immigration bills passed during his term as President but each time the bill has seemed to gather strength. The opponents of the measure objected to what is known as the literacy test which required immigrants seeking admission to this country to be able to read a certain number of words in some language. The critics of the bill claim that literacy is no indication of a man's honesty of purpose. The advocates of the bill admit that education is not a perfect test but that it is the best yet proposed and that while education does not make a good man of a bad one, it is of general advantage and is in fact essential to the best citizenship. The percentage of illiterates in prisons seems to bear out the contention that education is something of a preventive aginst crime. This is perhaps due to the fact that men of education are better able to meet the burdens of life and that many crimes are committed through ignorance of the law and the consequences of its violation.

The present bill is more liberal than some of its predecessors. It permits men admitted to citizenship to send for dependent relatives of various degrees regardless of whether they are able to read or not. Mr. Burnett, the author of the bill, has claimed that none of the northern countries of Europe will be in any way annoyed by its provisions. He claims that lack of education is largely a matter of climate. The people of Europe, including all such countries as England, Ireland, Scotland, France, Germany, Belgium, Norway, Sweden and others down to and including northern Italy have ample facilities for moderate education and generally avail themselves of such opportunities, but in Southern Italy, Sicilly, Corsica, Turkey, and the countries of that belt is where you find an increase of illiteracy and a disposition to neglect education. Our largest immigration of late years has been coming from these sections. The bill has passed both houses by more than the required two-thirds majority and is now the law of the land.

* * *

Another bill that passed the House last week of more than ordinary import is the bill making Alaska dry. This bill also passed by such a large vote as to make its opponents sit up and take notice. The fact that the people of Alaska had voted upon the matter themselves and had voted dry, had something to do with the majority in its favor here but the sentiment is growing and the dry territory is gradually closing in on the wet area.

A bill passed the Senate some time ago providing for prohibition in the District of Columbia which will very likely pass the House if it can be brought to a vote during this session. It is lodged in the Committee on the District of Columbia and this committee is not favorable to the proposition. They have however begun a series of hearings on the bill and may or may not report it out. There is a vast amount of important legislation to come before the House during the few remaining days of this session. The present critical situation with regard to our foreign affairs renders an extra session not at all likely.

Thomas and Martin Farrell went to St. Joseph today to attend the Christian Brothers banquet.

Announce Birth of Son.

Mr. and Mrs. Hosick Holmes announce the birth of a son, born yesterday afternoon at the St. Francis hospital. Mrs. Holmes was formerly Miss Nelle Campbell.

Social at St. Mary's Church.

The women of the St. Mary's Catholic church will hold a social in the church parlors, Monday evening, February 12. Games will furnish amusements for the evening and light refreshments will be served. Everyone is cordially invited to attend.

Surprise for Mr. Zahm.

Mrs. L. R. Zahm successfully surprised her husband last night in honor of his fortieth birthday anniversary. Cards and dominoes were played during the evening. Dainty refreshments were served by the hostess, assisted by her daughter, Doris. The following were present: Mr. and Mrs. Oliver Garrett, and daughter, Gertrude, Mr. and Mrs. Charles Eckert and daughter, Polly, Mr. and Mrs. R. G. Koch, Mr. and Mrs. Burt Rowley and daughter, Dorothy and Mr. and Mrs. John Tilson.

H. H. Meeting.

Mrs. Ed Vulgamontt entertained the Herron Home Making circle at her home Wednesday afternoon, February 7. The evening was spent socially. A dainty luncheon of ice cream and cake was served by the hostess, assisted by Mrs. A. E. Cockayne. The members present were Mrs. L. E. White, Mrs. S. E. Fisher, Mrs. I. E. High School Notes

By Forrest Hutchison.

The beginning senior class which will graduate in January next year, met for the first time Monday and elected Garland Miller president; Erma Greene, vice-president; Lester Masters, Secretary-treasurer; Miss Keeler, sponsor. There are fourteen members of the class, seven girls and seven boys. The members are: Erma Greene, Virginia Lawson, Helen Davis, Elizabeth Leet, Marie Davenport, Lou Mutz, Clydell White, Clarence Cook, Lester Masters, Donald Hagins, Clifford Lyle, Garland Miller, Ferd Masters and Robert McGinty.

* * *

The stunts put onat the pep assemblies at the High School are very original and amusing. The assembly given yesterday was the best that has thus far been given. The team of "future greats" which appeared at the assembly before the Stanberry game was again present. They gave a drill in the course of which they brought home to the audience very forcibly that "We-Will-Beat-Albany-tonight."

Those who took part were: William Engelmann, Creston Maul, Edward Fitzgerald, Cecil Bell, Erma Coler, Ora McPherron and Frank Roelofson.

The music for the occasion was furnished by the Dutch Band which has just been organized by Coach Schultz. In spite of the fact that the first meeting was held Thursday night, the band can play real music and with only a reasonable number of discords. Drum major Elmer Allen deserves great credit for the way in which he has drilled his troupe.

The following are the members of the band: Elmer Allen, drum-major; Louis J. Schultz, Lester Masters, Harold Adle, Lynn Wallace, James Robinson, Edward McPherron, Harold Stafford, Ralph Yehle, Clarence Cook, Ray Maul, Ferd Masters and Nile Selecman.

With each member appropriately costumed the band made a striking appearance. After the assembly the band led the students up town in a parade advertising the game.

* * *

Toward the end of last semester it was decided by a vote of the student body that hereafter the class pins worn by the graduating classes should be of the same design. The pin committee selected by the different classes met Thursday evening after school to get together on selecting a standard pin, but accomplished nothing definite. The members of the committee are: Eugene Martin, Erma Greene, Leska Wray, Elmer Allen, Alice Peery, Ray Hull, Helen Curfman, Helen Hankins. Miss Mabel Wells represents the faculty.

* * *

President Richardson of the Normal gave a very instructive talk at assembly last Tuesday morning.

* * *

The members of the new staff for the "High School Opinion" are being selected by Miss Keeler and Mr. Burger of the English department. Besides the regular staff, each class has been allowed to choose a representative.

* * *

The High School is venturing into new fields of inter-high school competition. A boys' quartet has been formed and is being trained by Miss Rooker to take part in a contest of that kind at the time of the Declamatory contest next spring. The members of the quartet are: Donald Hagins, Clarence Cook, Emmett Bartram, and Eugene Martin.

HAWES ROAD BILL PASSES.

Measure Goes Through House With Vote of 104-26—Job Votes "No."

Jefferson City, Feb. 9.—Howes' road bill No. 5, highway measure of the session was passed in the house today by a vote of 104 to 26. All of the Buchanan county members voted for it. Other representatives of northwest Missouri counties who cast affirmative votes were: Chestnut of Platte, James of Andrew and Wiley of Charlton. Job of Nodaway, Kunkel of Holt and Warrick of DeKalb county voted "No."

This is the bill which seeks to place Missouri in line to receive $2,500,000 of federal money for road purposes in the next five years.

WILL CHANGE AUTO LAWS

Buford Bill to Increase the Cost of Licenses—Will Benefit Car Owners in the State.

Special to The Democrat-Forum.

Jefferson City, Feb. 10.—Drastic changes in the State automobile laws soon will be made. The Senate subcommittee on Ways and Means has been assigned the work of making changes in the automobile laws and very shortly will commence work on the Buford bill which contains features recommended by Governor Gardner.

The Buford bill would increase the cost of licenses. Light cars, from 12 to 24 horse power, would have to pay $6 a year instead of $3 as now required by law. Cars from 36 to 48 horse power would be charged $5 to $8; from 48 to 60 horse power, $8 to $12; from 60 to 72 horse power, $10 to $12. From 72 horse power upward, $12 is the maximum charge.

The Buford measure also would provide that a State license would bar cities from imposing a municipal license. In this connection owners of heavy vehicles in the cities would effect a great saving.

Roy P. Brittain, of the St. Louis Automobile club and Frederick C. Hoover of the Kansas City Automobile club, are co-operating with the sub-committee in an endeavor to work changes in the present law that will be of benefit to car users throughout the state.

The sub-committee is composed of Senator Buford, of Reynolds; Elder of St. Louis; and McClintic, of Monroe.

ELECTION AT PENITENTIARY

Convicts at Jefferson City Chose Men To Carry Out the "Honor System" Project.

Special to The Democrat-Forum.

Jefferson City, Feb. 10.—The Missouri Penitentiary today held its first election. The election was strictly private, however, only convicts being permitted to cast ballots.

The election was held to permit the inmates to select nine convicts who will constitute a committee for making rules under which the "honor system" will be introduced into the prison. In formulating the rules the committee will make every effort to meet the exigencies of prison life.

When completed the rules will be submitted to Warden Painter and the State Board of Prison Inspectors for approval.

The "honor system" first attracted public attention when Thomas Mott Osborne, former warden of Sing Sing Prison, brought it into use at the New York State institution several years ago.

In Spain there has been invented a steel automobile wheel with steel tires which is said to have most of the advantages and none of the disadvantages of the rubber tired wheel.
